

## RESEARCH CONSENT FORM

### Welcome to the Music in Mind Music Café

*Supporting people living with dementia and their family carers through music.*

Manchester Camerata's Music in Mind programme uses the principles of music therapy to allow people living with dementia and their carers to make music together, improving health and wellbeing.

### You are invited to be part of our research

Across Greater Manchester Music in Mind is partnering with Age UK, Mind, Together Dementia Support, HMR Circle and Bolton Dementia Support to open 20 new dementia Music Cafés in the next two years. The University of Manchester will be conducting research to demonstrate the impact and benefit of these Music Café sessions to people's health & quality of life, and to help us to offer music as part of people's Dementia Care & Support Plans.

**We would love you to be part of this research**, to help us prove that Music Cafés provide valuable and cost-effective support to people living with dementia and their family carers, and to make it easier for us to secure more funding for future Music Café.

**The research will be completely anonymous and is optional.** If you want to help increase our knowledge, so we can continue to support future groups of people living with dementia, all we need is the **name, address and date of birth** of the person living with dementia (participant) who is attending the Music Café session.

**Your personal details will be held confidentially and will not be shared with anyone other than The University of Manchester researchers.**

**Delivery partner for Music Café (e.g. Age UK Salford):**

.....

**Location of Music Café:**

.....

**Participant full name:**

.....

**Participant date of birth:**

\_\_/\_\_/----

Participant postal address:

.....  
.....  
.....

\*Your signature:

.....

*\*Signatory, please delete as appropriate: Person living with dementia/carer*
